

SIDDHANT MISHRA

Master of Computer Applications

Gender: Male

Date of Birth: 03/05/2004

E-mail : mishrasiddhant3251@gmail.com

Contact : +91 6393513528

Educational Qualification

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2027	M.C.A	NIT, Trichy	08.07*
2023	B.Sc, Physics,Statistics,Mathematics	Purushottam Sriram Degree College, Kanpur	68.05%
2020	Class XII	Paritosh Inter College, Kanpur, UPMSB	81.40%
2018	Class X	Paritosh Inter College, Kanpur, UPMSB	90.00%

Academic Achievements

- 1700+ peak **contest** rating in Leetcode.
- 600+ DSA problem solved.

Internship Experience

Crop Recommendation System | Machine Learning, Python, Scikit-learn:

Jun 2025

- Developed a Machine Learning-based crop recommendation system that predicts suitable crops using environmental and soil parameters such as temperature, humidity, rainfall and NPK values.
- Performed data preprocessing, feature engineering, normalization, and class balancing using SMOTE to improve model accuracy and robustness.
- Evaluated multiple models including Random Forest, Decision Tree, SVM and Logistic Regression, selecting the best-performing model for real-time crop recommendations.

Other Project

Food Waste Reduction Platform | MERN Stack (MongoDB, Express.js, React.js, Node.js, TailwindCSS)

- Developed a full-stack platform connecting restaurants, NGOs, and delivery personnel to reduce food wastage through efficient donation and distribution workflows.
- Designed role-based dashboards and authentication for Restaurant Admins, NGOs, and Delivery Partners, enabling secure access control and seamless coordination.
- Implemented food inventory management and NGO reservation systems, allowing real-time listing, tracking, and allocation of cooked and raw food items.

- Built RESTful APIs and database-driven workflows for donation management, delivery assignment, and scalable data handling across multiple user role.

AI-Powered Document Chatbot (RAG) | Python, LangChain, ChromaDB, Mistral AI, Streamlit:

- Developed a Retrieval-Augmented Generation (RAG) chatbot that enables users to upload PDF documents and retrieve accurate, context-aware answers through natural language queries.
- Implemented a document processing pipeline using document uploading, text chunking, embeddings, and vector storage to perform efficient semantic search and information retrieval.
- Integrated LangChain and Mistral AI models to generate document-grounded responses while reducing hallucinations and improving answer relevance.
- Built an interactive Streamlit interface for document upload, indexing, and real-time conversational querying, providing a seamless user experience.

Image Caption Generation System| TensorFlow, Keras, CNN, LSTM, Streamlit:

- Developed a deep learning-based Image caption generation system that automatically produces descriptive textual captions for input images by combining Computer Vision and Natural Language Processing techniques.
- Utilized a Convolutional Neural Network (CNN) for feature extraction from images and an LSTM-based sequence model to generate context-aware captions from visual representations.
- Implemented image preprocessing, text tokenization, vocabulary creation, and sequence padding pipelines to prepare multimodal data for model training.
- Trained and optimized the CNN-LSTM architecture using TensorFlow and Keras, enabling caption generation and effective image-to-text translation.

Areas of Interest

- Computer Networks
- Object Oriented Programming
- Machine Learning
- Generative AI

Technical Skills and Certifications

- Programming Languages : C++, Python, Javascript, SQL
- Web Technologies : HTML, CSS, React.js, MongoDB
- Other Software : Visual Studio Code, Github, Google Colab
- Libraries&Frameworks : Standard Template Library, Numpy, Pandas, Express.js, Node.js, Langchain, TensorFlow.

Position of Responsibility

- Volunteer, **VERSION'25:** Mar 2025
Member of ARC. Managed and Strengthened Alumni relations through regular Communication and outreach. Actively collected funds and donations for events, contributing the events success greatly. Facilitated Alumni invitations and participation in VERSION'25.

Extracurricular Activities

Sport Activities:

- Represented MCA in Cricket during **Sportsfete'24**(the inter departmental sports competition of NIT Trichy).
- Represented Department in **Marathon** event of **Sportsfete'24**.
